Drug Usage Report

Reports ► Drug Usage

The Drug Usage Report will continue to function after activation of BPACNZRx.

Practices should, however, be aware that the Drug Usage Report will only report on drugs from the current drug formulary in use, being either MIMS or NZF.

It is recommended, if necessary, to run the Drug Usage Report, prior to BPACNZRx activation to generate the report on any MIMS drug usage. Post activation the report will only display NZF drug usage.
